Penn State Berks is an undergraduate college of The Pennsylvania State University, one of the nation’s largest and most widely recognized academic institutions. The campus enrolls more than 2,100 students and offers more than 26 associate and bachelor’s.

The college also offers the first two years of study leading to more than 275 baccalaureate majors offered throughout Penn State. At the transfer level, Penn State Berks serves students from all Penn State campuses and from community colleges and other accredited colleges and universities.

At Penn State Berks, students enjoy access to all the advantages the University has to offer. Most baccalaureate degrees have an internship requirement in which students work in their chosen fields, earning college credits for their experiences. Students complete 400+ internships per year. The Financial Aid staff helps students to identify and apply for a wide variety of grants, loans, work study, campus employment programs, and scholarships.

The college provides a rich student life with residence halls, a wide variety of clubs and organizations, athletics, cultural events, lectures, and many other activities. Students can work one-on-one with faculty members on research, study abroad, travel as part of course curriculum, and complete community service work as part of their college experience.

Student Housing
Penn State Berks campus housing serves more than 800 students through its modern residence halls, which are made up of fully furnished suites and include amenities such as a microwave, a refrigerator/freezer, air conditioning, computer ports, wifi, and much more.

Facilities and Technology
Classrooms are equipped with the most up-to-date teaching and learning technology, and wireless capabilities are available in all campus facilities. The Gaige Technology and Business Innovation Building is as cutting-edge as the learning and discovery that take place within it. A range of sustainability strategies allowed the building to receive LEED gold-level certification as a “green” facility. In addition, it houses the new Fluid Discovery Lab. The recently renovated Lasserren Science Building includes the latest in laboratory technology and the area’s only teaching Cadaver Laboratory. Beaver Athletics and Wellness Center is the new name of the college’s athletics and recreation facility which is currently undergoing a major renovation and expansion. The renovations will support our student-athletes’ success with an athletic trainers’ suite. Students will enjoy a much larger and better-equipped fitness center and auxiliary gym. Beaver is home to the Kinesiology degree program, and the project will provide a new exercise physiology lab and a biomechanics lab.

ATHLETICS
Penn State Berks offers 12 varsity athletic programs and competes as members of the NCAA Division III and North Eastern Athletic Conference (NEAC). The college also offers a variety of club and intramural sports. An artificial turf athletic field enables the college to continue to expand its athletic programs and activities.

CONTINUING EDUCATION
The Penn State Berks Office of Continuing Education offers degree completion programs for adult learners; M.B.A. program; an RN to BSN program; an M.Ed. in English as a Second Language; an ESL certificate for educators; licensing and credentialing programs in ‘3D CAD, PLC for industry; and engineering; credit certificates; and professional workshops tailored to meet the needs of its clients. Several of these programs are offered at business locations in the community.
