

About Yammer

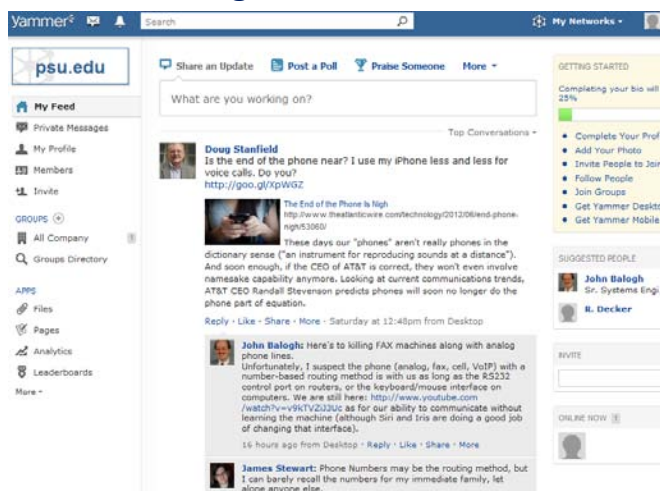

Yammer can be used to connect with students outside of the classroom. By using a Yammer Group for your class, you will be able to communicate with both the instructor and other students. Events can be scheduled or virtual office hours can occur, and information, notes, and examples can be posted for students to see and share.

Signing Up

You can make a new account by going to Yammer and clicking **Sign Up** on the right hand side of the screen. Enter your PSU email and click sign up.

A confirmation email will be sent to you. In order for your Yammer account to be created, you must go to your email and follow the instructions to complete your account set up.

Home Feed Page

Once you've logged into your Yammer account, you will be directed to your Home Feed Page.

This is where you can see posts and comments made by people and groups you are following. Here you can see your feed, and send updates to your followers/groups.

How to Join a Group

This is where you will communicate with your fellow students and instructor. If your instructor has not manually added you to the class group, you can join the group by searching for it.

1. Click on the **Groups** link on the left hand column of the home feed page.
2. Click on the letter that the group starts with.

3. Once you have found the group, click **Join**.

Using the Group for Class

Updates: Updates can be made to share announcements or reminders. They can also be used for students to ask questions that can be answered by the instructor and/or fellow students.

Info: Info can be edited by the instructor to add links to important documents, lists of useful tools, and/or anything else that improves the efficiency of your class.

Files: Files can be uploaded directly to your group. You can upload files for the instructor or your fellow students. This is useful for organizing assignments.

Pages: Pages can be created to gather and share policies, ideas, notes, and other information with your group.
